JINAN SHUNHE AUTO PARTS CO.,LTD

JINAN SHUNHE AUTO PARTS CO.,LTD

Drive unit

Heavy-duty, Surface-treated crankshaft, mounted in roller bearings on each side. Connecting rod and piston in aluminium.

Valve plate design N

Standard design with automatic lamella inlet and outlet valves fixed on side, optimized flow paths and flow crosssections.

Valve plate design K

With automatic ring inlet and outlet valves and splinter protection on the suction side. Ideal where high efficiency at high speed is required in the air-conditioning range.

Oil pump

Lube oil pump independent of the direction of rotation in compact design with oil overpressure valve.
